

## **Disabled parking spaces**

### **Parking at the main building Johanna Westerdijkplein and Poseidon**

There are 12 public disabled parking spaces available at the main building and Poseidon, 3 of which have a license plate number. These are located on the Stamkartplein side ([route map](#)). Students and employees in possession of a disabled parking card can use the public spaces. Use can also be made of the Q-park parking garage. Students can purchase a parking pass at a reduced rate through the Front Office Facilities & IT after approval by their dean. Employees can purchase parking passes at [the regular rate](#).

Also, there are a number of individual parking spots that can be assigned to a student or employee. Students can request an individual spot through the Dean. Employees can contact the Advisor for Health, Safety and Vitality. Possession of a handicapped parking card is required to apply for these spots.

### **Parking for mobility scooters Johanna Westerdijkplein**

Two mobility scooter spots are available in the bicycle basement of the main building. The mobility scooters can be charged here. An elevator key and a tac are needed to access the bicycle basement. These can be requested through the Dean or the Health, Vitality and Safety Advisor.
