

Ideas for Inclusive Education

Since January 2018 THUAS is participating in the 'Multininclude'-project: ideas for inclusive education. This is an EU-project funded by the Erasmus+/KA3-program aimed at policy for social inclusion through education, training & youth: https://eacea.ec.europa.eu/erasmus-plus/actions/key-action-3-support-for-policy-reform_en

The Multininclude-project intends to help educational organizations to deploy strategies in creating inclusive learning environments for youth in order to develop their sense of belonging in school, their communities and society. In this project THUAS is responsible for the consortium coordination and the detection of 70 cases and will contribute to the analysis of these cases and the exchange of the outcomes. The consortium-partners are:

- The Hague University of Applied Sciences (The Netherlands)
- European School Heads Association (The Netherlands)
- Stichting ECHO - Expertise Centre for Diversity Policy (The Netherlands)
- Associazione Dschola (Italy)
- University of Malmö (Sweden)
- KinderuniWien (Austria)
- Knowledge Innovation Centre (Malta)
