

Symposium

Transitions in the Economy:
a digital and circular future

Theme DigiCash & Fintech:

Host: Irene Dondjio, lecturer and researcher and Martijn van der Linden, lector New Finance

This round table focusses on the application of digital technologies in the monetary-financial system (fintech, digital cash, cryptocurrencies, etc). Irene Dondjio (lecturer International Business and researcher New Finance) will share his recent experiences in Ghana and his research plans. Subsequently, Martijn van der Linden (lector New Finance) will lead a conversation about recent developments, opportunities for countries with less developed financial institutions and possibilities to collaborate in research and development.

let's change
YOU. US. THE WORLD.
